Thailand distributor

ACTIVITIES

Since 2000, *NTN SYSTEM* has had the following activities:

Products and Services :

- Neutral Grounding Resistor (NGR), Neutral Grounding Resistor with Zigzag Transformer (NGT), Neutral Grounding Resistor for Generator , High Resistance Ground (HRG), Load Bank, Dynamic Break, Resistor Start, Harmonic filter
- Earthing transformer, Arc Suppression Reactor, Capacitor Damping Reactor, Current limiting Reactor, Filter Reactor, Tuning Reactor, Neutral Earthing Reactor
- MV and LV busduct up to IP68 Cast resin
- Copper or Aluminum flexible joint bar for Transformer, Generator or Machine connection.
- Explosion proof Class 1 Zone 1 - Lighting fitting, Switch and Plug - Electrical & Instrument Junction
- Safty barrier and surge protection - Alarm annunciator

STAFF

The Department has 5 employees

Person in charge

Mr.Narongsak Boontrisuan 081 315 3833

List of products

- LKE air load break switch
- NISSIN busduct (Thailand)
- Hilkar (Turkey)
- Copper flexible bar (Japan)
- SUS Aluminum profile and Automation (Thailand & Japan)

NGR experience

NGR experience of Mr.Narongsak Boontrisuan

- Year 1988 - Supervisor of Electrical department of Thai Film Industry (OPP film)
- Year 1989 - Sale and Service supervisor of Telemecanique (one part of Schneider products) in UTE Co.,Ltd.
- Year 1994 - Schneider Electric take over UTE Co.,Ltd.- move to be Sales supervisor of LV product.
- Year 1995 – Telemecanique product manager and LV protection expert
- Year 1997 - PENTA power Co.,Ltd. – Sales and Service manager – Products: NISSIN electric (MV capacitor and MV-LV busduct), Metal Deploye Resistor.
- Year 2000 – Setup my own company, K&T Combine Corporation Ltd to be distributor of LV and MV products of LS/Korea (the new name of LG electric), MV-LV busduct of NISSIN electric and Metal Deploye Resistor
- Year 2004 – Setup NTN system Co.,Ltd. (a company in K&T Combine) to be Sales and Services company of Power resistors for various application. Brands: Metal Deploye Resistor (France), M.S. resistances (France) and PowerOhm (USA).
- Year 2008 – Start to manufacturing High Resistance Grounding resistor for LV application under NTN SYSTEM brand.

The last job for NGR maintenance is NGR 33kV for THAI OIL project that defect during shipment from France to Bangkok. We repair the defect NGR and test according to standard routine test of Metal Deploye Resistor at Ekarat Transformer's laboratory.
